

CANPACK Group Integrated Management System Policy

CANPACK Group is a leading manufacturer of metal and glass packaging, metal closures, as well as services related to the production of packaging.

Our mission is to be the Global Partner of choice for impactful, experience-enhancing and sustainable packaging solutions – energising customers, connecting with consumers and inspiring employees to push boundaries.

Our vision is to redefine what's possible with packaging – for consumers, businesses and the planet.

Integrated Management System Policy objectives:

- uncompromised quality, safety, environmental and health performance,
- strive excellence by increasing the efficiency of key processes with continuous improvement culture and ensuring competences and knowledge availability,
- provide safe working conditions for the employees, visitors and service providers,
- protection of the environment, including prevention of pollution and sustainable resources use,
- enable growth of the Group and constant strengthening market position by excelling in customer satisfaction.

We realize these objectives:

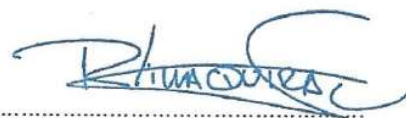

- regular review and continuous improvement of product quality and safety, environment and occupational safety management systems according to the relevant regulations and standards,
- complying with applicable legislative and other compliance obligations,
- promote quality and safety culture to meet and exceed customers' expectations and aiming to 'zero defect and zero accidents'
- prevention of work-related accidents, injuries, near miss, ill health, occupational diseases by eliminating hazards and reduce Occupational Health & Safety risks to which CANPACK employees and visitors are exposed,
- close cooperation, consultation and participation of employees in activities, affecting their safety and health and improvement of the Occupational Health & Safety management system,
- reducing consumption of natural resources, energy, amount of waste and promote sustainability,
- continuous analysis of hazards and opportunities for improvement of the areas generating significant risks related to CANPACK activities,
- following and improving of good manufacturing and hygiene principles and World Class Manufacturing practices,
- promoting a culture of innovation and creativity through continuous improvement of our processes, products and services,
- implementation and development of aluminium and packaging recycling programs compliant with local regulations and practices,
- business development and growth, together with considering values of social, ethical and environmental responsibility.

The Integrated Management System Policy is the framework for setting quality, environment and occupational health and safety objectives to support customer satisfaction, CANPACK Group's strategy and sustainable growth.

The CANPACK Group Executive Committee provides resources and means necessary to implement the Integrated Management System Policy, its regular reviews of efficiency and guarantees that the Policy is communicated, understood and observed by all employees and available to interested parties.

Values and responsibilities of the CANPACK Group in scope of environment and industrial safety are described in the „CANPACK Group Global Environmental and Health & Safety Policy”.
